

## SOLAR Speed Radar

Model	Picture	Specification
ATL-SPR-3		<ul style="list-style-type: none"> <li>• Display led : 3 digits</li> <li>• Power supply : 80W solar high efficiency crystalline solar panel</li> <li>• Free maintenance solar battery: 12v65ah</li> <li>• Working voltage : 12V</li> <li>• Working current : &lt;1.5A</li> <li>• Max speed: 199KM/H</li> <li>• Display model : Fix in safe speed range, flashing when over speed (other upon request)</li> <li>• Frame size: 90*70cm</li> <li>• Working range: 3-4 Vehicle Lane</li> <li>• Time control, 3 days back up, Adjustable speed</li> <li>• Automatic brightness regulation, High contrast and glare coating</li> <li>• Easy installation, led color red or other.</li> <li>• Radar sensor detection range: &gt;100m.</li> </ul>

## SOLAR Speed Radar

Model	Picture	Specification
ATL-SPR-4		<ul style="list-style-type: none"> <li>• Display : Dot-matrix it can show short messages of text also</li> <li>• Power supply : 100W solar high efficiency crystalline solar panel</li> <li>• Free maintenance solar battery: 12v65ah Working voltage : 12V</li> <li>• Max speed: 199KM/H Display model : Fix in safe speed range, flashing when over speed</li> <li>• Out frame size:90*70cm</li> <li>• Working range: 3-4 Vehicle Lane</li> <li>• Time control, 3 days back up, Adjustable speed</li> <li>• Automatic brightness regulation, High contrast and glare coating</li> <li>• Easy installation, led color red or other.</li> <li>• Radar sensor detection range: &gt;100m.</li> <li>• Display reading distance 150m</li> </ul>

## SOLAR Speed Radar

Model	Picture	Specification
ATL-SPR-5		<ul style="list-style-type: none"> <li>• Display : Dot-matrix it can show short messages of text also</li> <li>• Power supply : 200W solar high efficiency crystalline solar panel</li> <li>• Free maintenance solar battery: 12v150ah Working voltage : 12V</li> <li>• Max speed: 199KM/H Display model : Fix in safe speed range, flashing when over speed</li> <li>• Frame size:90*70cm</li> <li>• Working range: 3-4 Vehicle Lane</li> <li>• Time control: 5 days back up</li> <li>• Adjustable speed</li> <li>• Automatic brightness regulation, High contrast and glare coating</li> <li>• Easy installation, led color red or other.</li> <li>• Radar sensor detection range: &gt;100m.</li> <li>• Display reading distance 150m</li> </ul>

- Raise the speed awareness of oncoming drivers with radar speed signs. Radar speed signs are traffic calming tools that alert motorists of their speed that can be used by cities and towns, neighborhoods, school zones, work zones, parks, daycare areas, churches, highways, routes or anywhere traffic tends to exceed a safe rate of speed.

- Our radar speed signs (also called radar signs, driver feedback signs, speed display signs, radar speed displays, and “Your Speed” signs) are attractive, easy to operate, constructed with a rugged design for long life, and were designed with safety features that allow easy operation while effectively slowing traffic down and making roads safer

### **Radar Speed Signs Help Save Lives!**

- Studies have proven that slowing traffic down will greatly reduce the chances of a fatal accident involving pedestrians and automobiles. Just a small reduction in speed has a dramatic effect on

### **Radar Speed Signs Work!**

Tests repeatedly show that:

- Speeders will slow down up to 80% of the time when alerted by a radar sign
- Typical speed reductions are 10-20%.
- Overall compliance with the posted speed limit will go up by 30-60%.
- Radar speed signs are particularly effective at getting “super speeders” to slow down

### **Solar Power Radar Speed Sign**

- Solar power radar speed sign is an excellent choice when an AC power source is not readily available or is expensive to run.
- ICON solar power radar speed provide safe operation in any position
- They can be placed anywhere freely, no trench, no cabling, no network connection needed
- Our unique energy management ensures that the battery life is maximized granting a perfect working of sign.
